EvenGlow™ Two-Sided Side Load Frame SmoothSlide™ with ThinVisible™

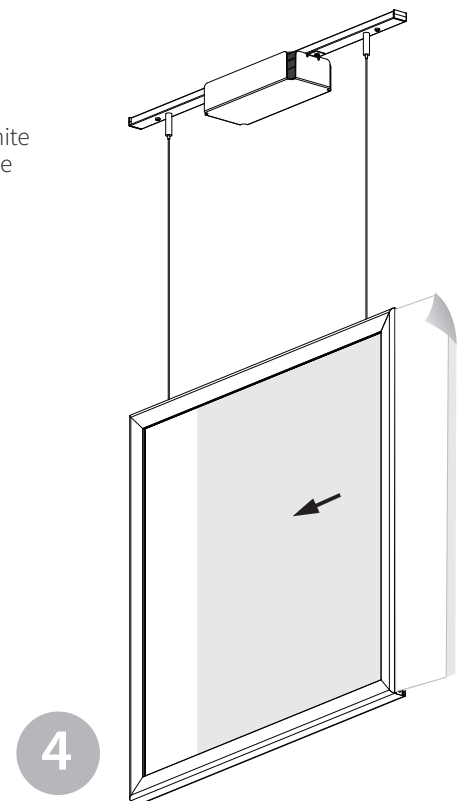

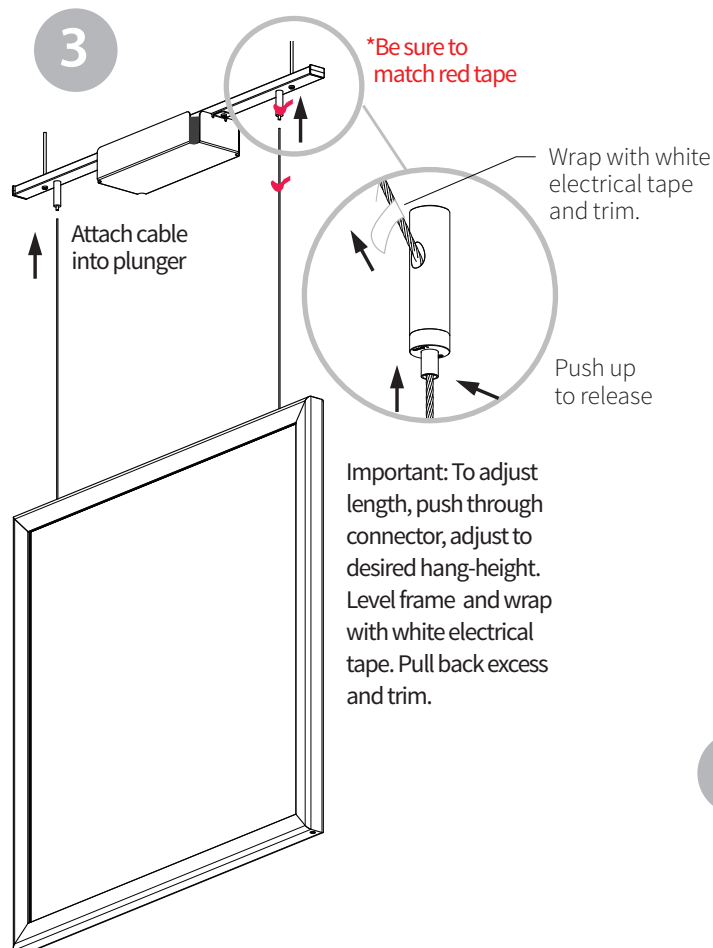

Assembly Instructions

Exclusive
SmoothSlide™
feature in top
and side loading
models makes
changing out
the thinnest
of graphics
a breeze.

Please Note: Positioning the mounting box
in close proximity is preferred. (18" or less)
Otherwise a longer power extension
cord may be required.

Insert your Graphic & PETG.
The PETG goes in front of your graphic.
Repeat for the other side of your frame.

EvenGlow™ Two-Sided Top Load Frame SmoothSlide™ with ThinVisible™

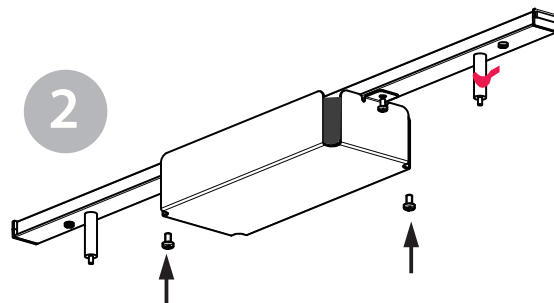

Assembly Instructions

Exclusive
SmoothSlide™
feature in top
and side loading
models makes
changing out
the thinnest
of graphics
a breeze.

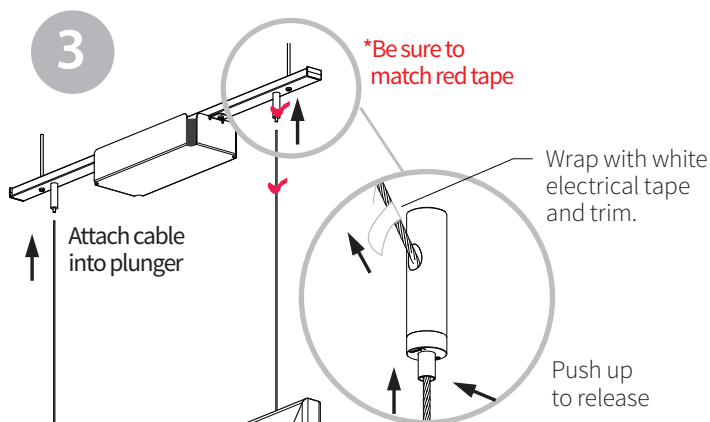

** For one-sided illuminated
frames, orient frame to face
desired direction. Install track
with red tape on same side as
tape on frame-powered hang
cable.*

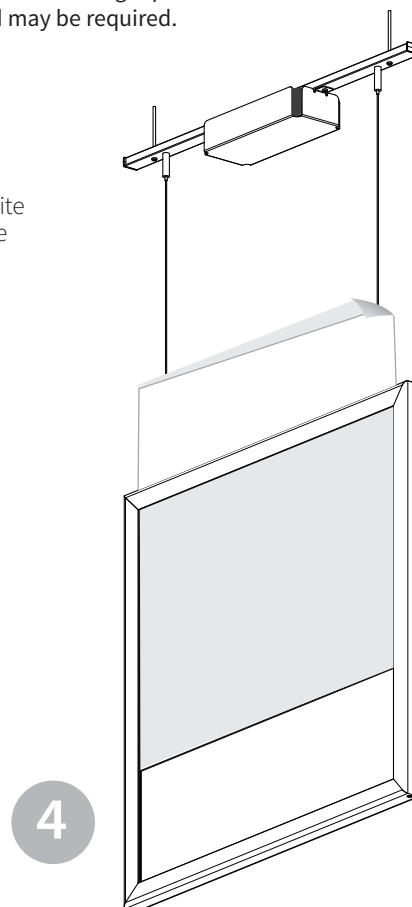

Insert power supply and attach mounting box
to the track. (Mounting box can also be attached
to ceiling directly using longer screws included.)

Please Note: Positioning the mounting box
in close proximity is preferred. (18" or less)
Otherwise a longer power extension
cord may be required.

Important: To adjust
length, push through
connector, adjust to
desired hang-height.
Level frame and wrap
with white electrical
tape. Pull back excess
and trim.

Insert your Graphic & PETG.
The PETG goes in front of your graphic.
Repeat for the other side of your frame.
