## Introducing the EvenGlow<sup>™</sup>

Our new edge-lit LED lightboxes deliver the impact you're looking for without compromise—making your graphics and your products look their absolute best.

Realize your vision for any store environment utilizing a selection of oneand two-sided lightboxes with flexible options. And advanced, Retail-Smart<sup>™</sup> features make these attention-getting lightboxes easy to install in a variety of scenarios—and even easier to use.

## LED Lightbox Collection.

Designed to meet the needs of store planners, designers, and visual merchandisers.

New level of visual impact and consumer appeal

Brightest and most evenly lit available

Advanced installation and usability features

Any size you need from 8" x 8" up to 48" x 96" "I had some executives visit a new shoe department [where we had installed EvenGlow lightboxes] and they were so mind-boggled they said 'Wow! We've got to do the other side of the store like this!'."

**Chris Tennyson** Director Store Environment Golfsmith International Maximum visual impact and a look that complements your brand.

# The Blues

Not just for playing anymore.

Display graphics at their best, without dark or hot spots, using the most evenly-lit LED panels available.

Advanced LED components ensure maximum brightness to attract shopper attention and interest

Minimalist frame styles and ultra-thin profiles focus attention on your message, and work perfectly with contemporary store designs

Choice of colors and finishes to exactly match your décor and brand standards

Smart features for easier installation and usability.

**Patented Spring-less Snap Rail** lets you recess lightboxes flush into fixtures, end-caps, or walls without the need for clearance around the frame. Graphic change-out is quick and easy without risk of lost springs or slack rails.

Exclusive SmoothSlide<sup>™</sup> feature in top and side loading models makes changing out the thinnest of graphics a breeze in tight spaces, such as windows.

Conductive Thinvisible<sup>™</sup> hanging system<sup>\*</sup>

provides electrical power over thin hanging cables, eliminating the need for unsightly power cords—creating a cleaner look with simpler installation.

\*Available with double-sided product only.

Dependable ROI, custom-built quality, and the longest warranty in the business.

Because every Rose Displays LED lightbox is produced to your specifications, you'll get the exact sizes you need in days, not weeks; no minimum quantities required.

You can also expect the longest possible service life from our superior quality, craftsmanship and construction that reflect the quality of your brand.

Enjoy maximum return on investment. Every EvenGlow LED lightbox is backed by our 5-year limited warranty—the longest in the industry.

It's our largest upholstery event of the year.

**15% off** Upholstery Sale
