

AnoLock™

Superior Strength with a Simple Pinch.

The new AnoLock holder uses a patent-pending cam-action design that provides exceptional gripping strength while being very easy-to-use.

- Extreme holding power on traditionally troublesome substrates such as fabric and UV-coated material.
- Unique contoured shape makes changing graphics simple with just your hands.
- All-aluminum design eliminates pliability and heat issues associated with plastic, increasing durability and longevity.
- End caps are permanently attached, which means less pieces to lose at store level.
- Wider profile of 1 1/4" provides a bold, elegant look to your displays.

Profiles & Colors

12CH100-A
Clear Anodized

12CH100-B
Black Anodized

Simply press the bottom of the holder to open. Squeeze the top to close the holder securely on your graphic.

AnoLock Substrate Possibilities

	inches	millimeters	points
maximum thickness	.010"	1/4	10
minimum thickness	.001"	1/40	1
Sizes reflect combined laminate and substrate thickness.
