# AnoQuick™

A finished look for a variety of substrates.

AnoQuick's sturdy, durable profile is an ideal solution for most any graphic. This aluminum holder can be used alone for 3/16" foamboard, with AnoQuick Pegs to hold thinner substrates, or with 1/4" dowels for fabric.
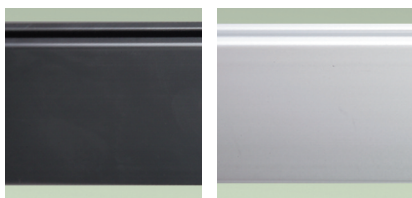

- **Sturdy enough for permanent or semi–permanent installations.**
- **Eliminates bowing.**
- **Create larger displays by connecting multiple lengths.**

Always cut to your exact specifications.

Shown actual size

2 End Caps are included with each holder.

Used with a standard 1/4" dowel, AnoQuick is perfect for fabric substrates.

AnoQuick, plus the AnoQuick Peg, works with thinner substrates.

AnoQuick is ideal for thick substrates up to 3/16".

*Suction cups are not recommended for use with heavier AnoQuick installations. Call for recommendations.

Cable End Caps
Light Grey

Cable end caps must be
used with a cable stop no
larger than 5/8" diameter
by 1/2" tall.

For proper sizing, your
graphic should be 1" less
than the space between
your cables.

Cable end caps can only be
used with the round profile.

Test prior to rollout.

AnoQuick Substrate Possibilities

minimum thickness	inches	millimeters	points
equivalent to: penny	1/16"	1 1/2 mm.	60 pt.
	1/8"	3 mm.	125 pt.
maximum thickness equivalent to: 3.5 floppy disk	3/16"	5 mm.	188 pt.

These thicknesses require the use of the AnoQuick Peg.

Sizes reflect combined laminate and substrate thickness.

specifications. For other sizes, call for pricing.

Technical Information

AnoQuick presses easily onto foamboard edges
where total thickness of board, image and
protective laminate is equal to 3/16".

For rigid substrates like Sintra use the AnoQuick
Peg for maximum security. For pocketed banners,
dowels are available. Call for pricing.

Stock finishes are black, and clear anodized aluminum.
Custom colors also available; 10,000 ft. minimum and
an up charge may apply. Wood finishes are available
and we can match most colors. Minimum quantities
apply. Call for pricing.
