# Stretch your imagination— create a world of infinite possibilities.

FabriWare® Soft Signware

makes it easy for designers and visual merchandisers to create a unique, sophisticated environment that attracts attention, engages shoppers and truly expresses your brand.

- Custom fabric display system lends a softer feel to your graphics while delivering maximum visual impact

- Ultra-thin profile draws attention to your message, not the frame

- Choose framed or frameless mounting— both are built into our unique rail system

- Scalable to any size, lightweight design complements any retail environment

- Exclusive FlexEdge™ bead assures easy installation and precise fitment of your soft signage; graphics of any size can be changed in minutes by just one person

- Get the exact sizes you need in days not weeks—no minimum order required

- Superior craftsmanship and outstanding print quality reinforce your brand image

- To ensure perfect fit, we provide both rail hardware and printed graphics; single source supply also saves shipping costs and improves store compliance

- Expert Signware™ Specialist service team assures on-schedule, trouble-free rollouts

- Fabric offers a high quality, environmentally friendly alternative to rigid substrates

Precision-engineered, framed or frameless profile in same rail
**Sleek, stylish minimalist design**

Scalable to any size needed

Cost effective alternative for large scale graphics
