

Give your store an energy boost.

The new self-contained SmartStand™ kiosk

by Rose Displays is the easy — and easily affordable — way to bring the excitement of the omni-channel experience into any store.

- Two built-in EvenGlow™ LED lightboxes attract attention
- Elovview 22" LCD Android-compatible interactive touch-screen monitor lets shoppers locate and select products, check availability, and even purchase and arrange delivery
- Change messaging in seconds to feature different products, brands, or special promotion
- Select a ready-to-roll stand alone SmartStand, or tailor a customized solution
- Easy-to-use software updates content, monitors and manages all of your remote SmartStands from one dashboard
- Includes built-in Wi-Fi and Ethernet — no extra hardware required!
- ADA compliant, retail-ready frame is mounted on durable casters for easy mobility
- Demonstrate feasibility and ROI with an economical in-store test that is set up in about 30 days, using your existing digital assets

**New level of visual impact
and consumer appeal**

**Advanced installation
and usability features**

**Expertise you can count
on for maximum ROI**

Trouble Free Rollouts

Put a SmartStand to work wherever you need extra selling power.

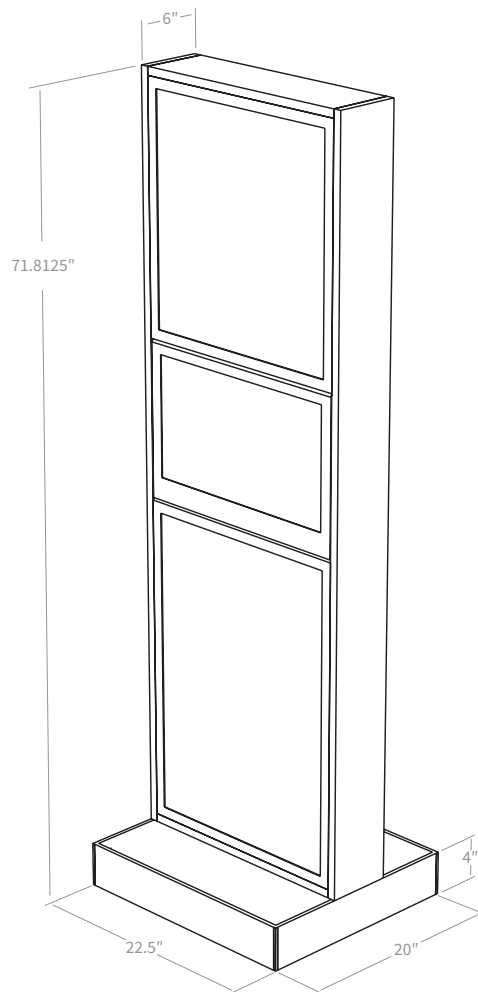

Wall-mount | Incorporate interactivity into any wall display, and complement your existing merchandising systems or feature walls.

End Cap | Integrates with any Madix or Lozier shelving system to deliver a fully interactive experience along main aisles or at the front of the store.

Freestanding | Standard configuration is perfect for mid-store placement or situations where you want to change locations frequently.
