**AnoGlow™ LED lightboxes** are designed specifically for store planners, designers, and visual merchandisers. Make your graphics—and your products—look their absolute best.

- The first two-sided, slide-in LED lightbox keeps attention on your message, within an ultra-thin profile
- The most even lighting and ultra-bright LEDs showcase your graphics with no dark or hot spots
- Changing even the thinnest graphics is easy in windows and tight spaces
- Electrical power delivered over thin, barely visible hanging cables
- Get the exact sizes you need, no minimums required, in days not weeks
- Renowned service team assures on-schedule, trouble-free rollouts
- Superior craftsmanship & construction reflect the quality of your brand
- Backed by our 5-year warranty—the longest in the industry

**New level of visual impact  
and consumer appeal**

**Advanced installation  
and usability features**

**Expertise you can count  
on for maximum ROI**

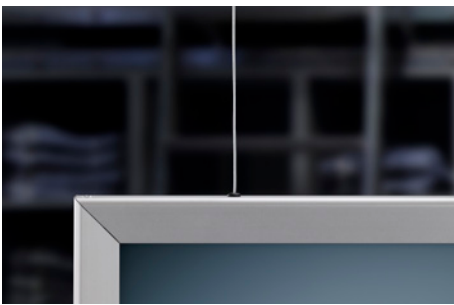

# Advanced Engineering for Greater Flexibility and Exposure

**Window** | Generate interest and invite shoppers into your store with illumination on one or both sides for greater impact.

**SmoothSlide™ Graphic Loading** | Even the thinnest of graphics can be changed easily, in virtually any space without snagging or bending.

**Thinvisible™ Conductive Hanging System**  
Delivers electrical power over thin hanging cables; this ideal solution eliminates unsightly power cords, achieving a cleaner look and simplifying installation.

**Mid-Store** | Capture attention from all angles and locations within your store that attracts shoppers to featured areas. Hanging installation with our eyelets or Thinvisible™ power cables create a clean and unique display.

## ORDERING OPTIONS

### Loading

- Snap, Front-Load

### Graphic Dimensions

Width \_\_\_\_\_ x Height: \_\_\_\_\_

### Orientation

- Portrait
- Landscape
